PREFACE.

THE following pages contain a Vocabulary to all the hieroglyphic texts of the Chapters in the edition of the Theban Recension of the Book of the Dead which is issued simultaneously with the English translation of that work, and also to the supplementary Chapters from the Saïte Recension which are given therewith. To have made a concordance would have entailed needless labour, but wherever possible a large number of references have been given in order that the reader may have abundant examples of the various uses of words for purposes of comparison and identification of passages. In the case of words of unfrequent occurrence I have given all the examples found in the book. The arrangement of the words and their various forms is usually alphabetical, and it is hoped that the exceptions to this rule will cause the reader no difficulty.

The order of the letters and syllables is that adopted by the late Dr. Brugsch and M. Pierret; for the values of the latter the reader is referred to the grammars and sign-lists.

My thanks are due to Mr. Holzhausen of Vienna for the care which he has taken in printing the long series of hieroglyphic texts and this Vocabulary.

E. A. WALLIS BUDGE.
